Dear Harold,

I have an idea: Let's be friends! I have another idea: why don't you help me? I have found at something significant about Carlos Bringuier. I am going to go interview him. Could you instruct me on the Bringuier and Orest Pena documents: I want to see them all and understand your interpretation of them. Can you help me?

As for the La Fontaines and that whole debate, I think I'll just pass. We can spend our time more usefully than bickering about the 5 percent of the story we disagree. Let's work on agreeing more completely on the 95 percent.

I will call you next week. I hope you are feeling better.

Best,
